1	Plug Drill	DD#5/32	C				
1	Screw	DS0001	C				
1	Installation Guide	DI0007					
				NOTES:			
				1.It's a requirement, before installing a Dynojet kit that your carbs pilot circuit is all stock. CHECK IF NOT ABSOLUTELY SURE.			
				2.It is not uncommon to move the needle 3 grooves up or down from base settings to achieve full function.			
				3.Always remove float bowl vent tubes, especially on Calif. models.			
				4.Instruction Sections Used: DI0000. A-B-C-E
