Stock Connectors

PCIII Connectors

1   Remove passenger seat (Fig. A1).

2   Remove grabrail (Fig. A2).

3   Remove cover on top of rear light (Fig. A3).

4   Remove cover under rearlight (Fig. A4).

5   Remove top and bottom left-hand side cover (Fig. A5).

6   Bend open the black middle left hand side cover from the back side.

7   Look for grey connectors (Fig. B), disconnect them, and plug in the Power Commander connectors in line of the stock wiring harness. (Fig. C)

8   Route the PC harness through the trunk to the back of the scooter.

9   Attach the ground wire from the PC to the negative side of the battery.

10 Install the PC on top of the battery, using the supplied Velcro.
